

Blue light Emergency phones

Michael Wagner - 2023-04-10 - Comments (0) - Phone Sets and Features

SOU Campus blue light phones are provided for the convenience and safety of our students and staff. The campus map (<http://www.sou.edu/map>) will allow you to find the nearest blue light phone.

There are several types of blue light phones on campus. Most blue light courtesy phones have just the keys **0-9**, *****, and **#**. There are some phones that have a pre-programmed emergency button. This feature enables the user, in an emergency situation, to simply press the button and be connected with Campus Public Safety.
