Accessing Google Groups

Adrian Ulsted - 2025-04-23 - Comments (0) - Google Apps

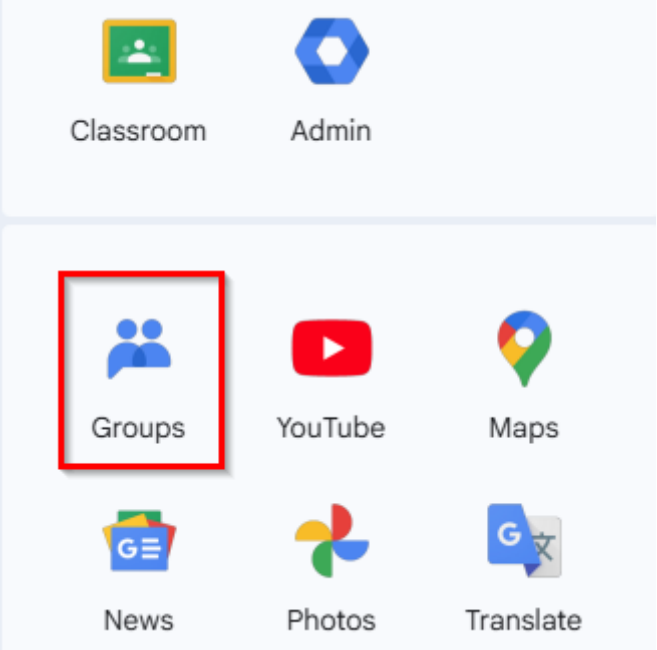

This article goes over how to access your Google groups.

You can access your group by directing your browser to https://groups.google.com/a/sou.edu/forum/#!myforums

Alternatively you can click the Groups icon under the apps menu (9 squares) in Gmail, which you'll find in the top-right corner of your SOU email inbox as depicted below.

If you do not see the Groups icon, you may need to click scroll down to find it.

How can I post to a group, but not receive email from it?
