

Accessing Google Groups

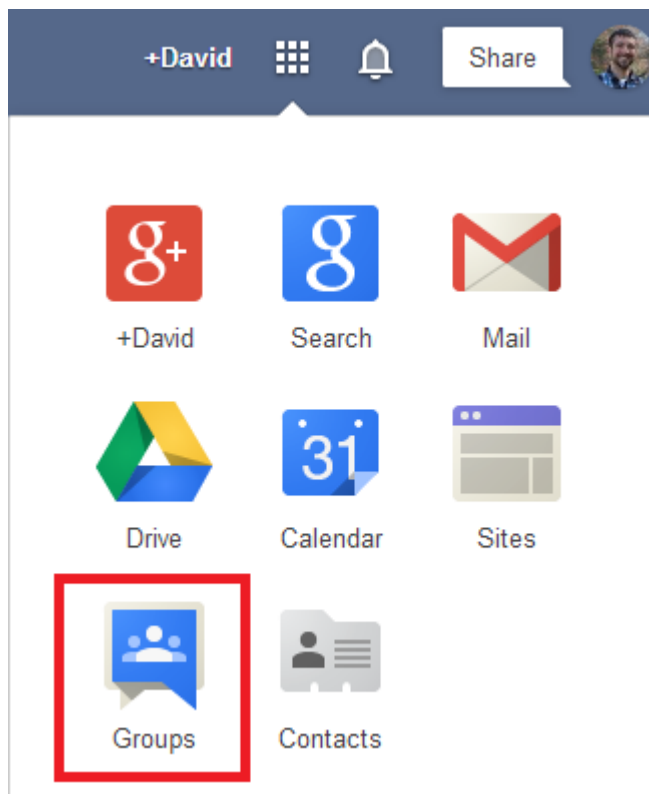

Adrian Ulsted - 2025-04-23 - Comments (0) - Google Apps

This article goes over how to access your Google groups.

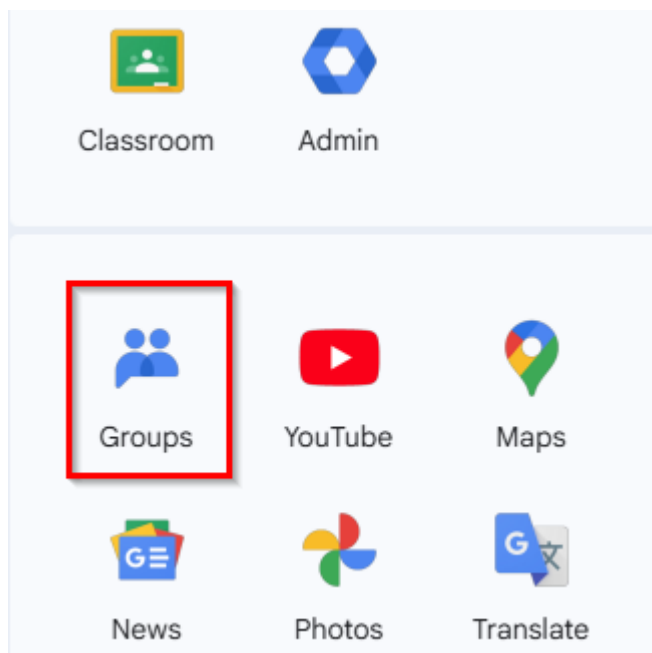

You can access your group by directing your browser to

<https://groups.google.com/a/sou.edu/forum/#!myforums>

Alternatively you can click the Groups icon under the apps menu (9 squares) in Gmail, which you'll find in the top-right corner of your SOU email inbox as depicted below.

If you do not see the Groups icon, you may need to click scroll down to find it.

How can I post to a group, but [not receive email](#) from it?
