Accessing Google Groups

Adrian Ulsted - 2023-03-29 - Comments (0) - Google Apps

You can access your group by directing your browser to

<https://groups.google.com/a/sou.edu/forum/#!/myforums>

Otherwise click the Groups icon under the apps menu (9 squares) in Gmail, which you'll find in the top-right corner of your SOU email inbox as depicted below.

If you do not see the Groups icon, you may need to click More.

Then click on the  button on the next page that comes up to display your list of groups.

How can I post to a group, but [not receive email](#) from it?
