# Accessing SOU Gmail on your Android device

Brad Christ - 2025-06-16 - Comments (0) - Android

To configure the Gmail app on an Android device for access to SOU Gmail, just follow these steps:

1. Open the **Settings** app on your device
2. Tap **Accounts & Sync**
3. Tap **Add Account**
4. Tap **Google**
5. Tap **Next** and then tap **Sign in**
6. Enter your account information, being sure to use your full SOU Gmail address, including '@sou.edu'
7. Tap **Sign In**
8. Select the items you would like to sync, make sure to tap **Sync Gmail** among anything else you would like to synchronize with your SOU Gmail account (contacts, calendar, etc.)
9. Tap **Finish**

And you're done.  If your account is not working, please reset your password here: http://account.sou.edu/

If you are still having problems, then make sure that IMAP is enabled in your email account, which is accessible by going to settings within Gmail.

Note: On Android devices, we recommend using the built-in Gmail app due to Gmails unique features that are not available in other Android mail clients (such as Mail or K-9).
