

Blue light Emergency phones

Michael Wagner - 2025-06-23 - Comments (0) - Phone Sets and Features

SOU campus blue light phones are provided for the convenience and safety of our students and staff.

The [campus map](#) will allow you to find the nearest **blue light phone**.

There are several types of **blue light phones** on campus. Most **blue light courtesy phones** have just the keys **0-9**, *****, and **#**.

Warning

There are some phones that have a **pre-programmed emergency button**. This feature enables the user, in an **emergency situation**, to **simply press the button** and be connected with **Campus Public Safety**.
