Clear Frequently Contacted with Old Name/Email Address

Stephen Lanning - 2019-12-03 - Comments (0) - Google Apps

In order to remove your old name/email address from Google after a name change, you may need to remove your old email from the 'Frequently Contacted' list in your Contacts, as well as the lists of others who may have contacted you prior to the name change.

How to Open and Access Gmail Contacts

-Open Gmail.

-Select the Apps icon in the upper right.

Click the three vertical dots and click More Actions and Choose 'Delete'.
