Faculty: Change Text Editor

Hart Wilson - 2023-12-27 - Comments (0) - Faculty

The upgrade to Moodle 4.1 brought with it a new ["TinyMCE" text editor](#) with a wide range of functions. Formerly, the ["Atto" editor](#), created to provide more accessible content online, was our default text editor. TinyMCE has caught up with accessibility standards and Moodle plans to phase out Atto in the not-too-distant future, so TinyMCE has been designated the default editor moving forward. It's easy to switch between the two editors, so you can enjoy the advantages each offers.
