

## Faculty: Display Due Dates on Course Page

Hart Wilson - 2023-12-18 - [Comments \(0\)](#) - [Faculty](#)

Having due dates displayed on your page is a great thing! (And is a much better solution than including due dates in activity names.)

The screenshot shows a Moodle course page with three activity cards. Each card has a colored icon, a title, and a due date displayed in a yellow box. The cards are separated by a wavy vertical line.

- Assignment** (pink icon): "Due: Friday, October 20 12:00 PM" (yellow box). Action: "Make a submission".
- Forum** (orange icon): "Due: Wednesday, October 18 12:00 PM" (yellow box). Action: "Make forum posts: 1".
- Quiz** (pink icon): "Opened: Sunday, April 30 12:00 PM" and "Closed: Wednesday, May 3 12:00 PM" (yellow boxes). Action: "Receive a grade".

To display due dates on your course page, open the **Settings** menu. Open the **Appearance** options area and select **Yes** in the **Show activity dates** field. (This option is currently the default in our standard course template.)
