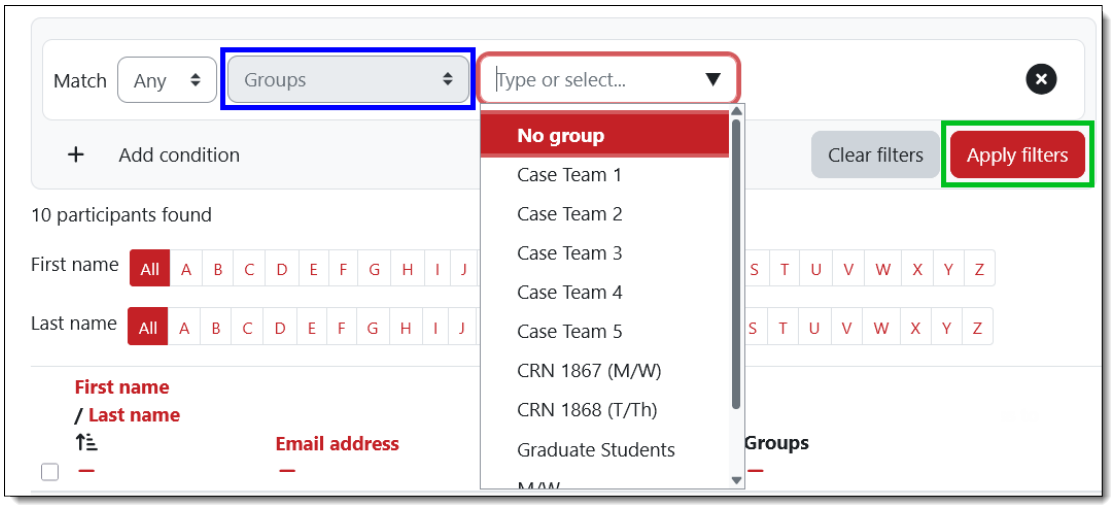
Faculty: Filter Users by Group

Hart Wilson - 2025-12-15 - Comments (0) - Faculty

The **Participants** interface offers the option to filter by group membership. The handiest thing about this feature may be its ability to generate a list of students who have not been assigned to a group.



Another enhancement to this page is the ability to sort the users based on their last access to the course. Click on the **Last access to course** column heading to view the students by most recent access or click it again to see which students have been away from the course the longest.
