

Faculty: Journal Activity

Hart Wilson - 2018-08-21 - 0 Comments - in Faculty

The **Journal** activity has made a comeback! This activity allows students to continue to add to an online text assignment over time. Points are recorded just once, but instructor feedback can be entered as often as you like in response to student reflections.

When students open the link, they can enter their response.

On the instructor side, this is how you access student journal submissions:

Week One Journal

How is your internship going?

[View 1 journal entries](#)

[Start or edit my journal entry](#) You have not started this journal yet

Once you view submissions, you can assign grades and provide feedback:
