

Faculty: Moodle Basics Guide

Hart Wilson - 2023-04-07 - Comments (0) - Faculty

(Version initiated August 2018) Download your copy of [Moodle Basics for Faculty](#) today!

(Note: The biggest change in this version that carries over to other documentation that may not yet be updated is that instead of finding administration links on the left, you'll find them via an admin "gear" in the upper right corner of any page.)

See [Getting Started](#) in Moodle for information on getting your course up and running.

Tip: The guide contains many links to other resources, so save it to your computer for future reference—you'll be glad you did!
