Faculty: Prevent Backtracking in Quizzes

Hart Wilson - 2020-11-11 - Comments (0) - Faculty

To require students to move forward in a quiz one question at a time without being able to return and review previous questions, set the quiz **Layout** options as follows:

1. Click on **Show more...**.
2. Change the **New page** option to **Every question**.
3. Select **Sequential** from the **Navigation method** option pull-down menu.
