

Faculty: Prevent Backtracking in Quizzes

Hart Wilson - 2020-11-10 - Comments (0) - Faculty

To require students to move forward in a quiz one question at a time without being able to return and review previous questions, set the quiz **Layout** options as follows:

1. Click on **Show more...**
2. Change the **New page** option to **Every question**.
3. Select **Sequential** from the **Navigation method** option pull-down menu.

The image shows two screenshots of the Moodle quiz 'Layout' settings. The top screenshot shows the 'New page' dropdown set to 'Every 5 questions' and the 'Repaginate now' checkbox unchecked. A yellow box highlights the 'Show more...' button. A red arrow points from this button to the bottom screenshot. The bottom screenshot shows the 'New page' dropdown set to 'Every question' and the 'Repaginate now' checkbox checked. The 'Navigation method' dropdown is open, showing 'Free' selected and 'Sequential' highlighted in yellow. A red box highlights the 'Navigation method' dropdown menu.
