

Faculty: Repair Group Choice Link

Hart Wilson - 2023-01-04 - Comments (0) - Faculty

We love the [group choice](#) activity which enrolls learners in a group based on their choosing it! It's just so efficient.

BUT...

...there's a bug in the system. When you import a group choice activity from a prior term's course, the choices made by the students in that prior term will appear to exist in your new course -- even though those students aren't enrolled and haven't made a choice.

When you open the link, it might look like this:

Choice	Group	Show descriptions	Members / Capacity	Group members
<input type="radio"/>	Group 10	(Full)	3 / 3	Edward Cullen Elizabeth Bennett Marty McFly
<input type="radio"/>	Group 11	(Full)	3 / 3	Jane Collins Leonard Paul Turner
<input type="radio"/>	Group 12	(Full)	3 / 3	John Paul Abuchie Katherine Binghamhouse Ally Randel
<input type="radio"/>	Group 13	(Full)	3 / 3	Alma Lee Emily Richardson Adam Ramon

Don't panic! There's a super easy fix.

All you have to do to fix this is click on the gear in the upper right corner to **Edit settings** of the group choice link, then scroll down, reset the number of people who can choose each option (if you want to control the number of learners in each group), then select and add the groups that you wish to include in the activity:

Limit the number of responses allowed ?

General limitation

▼ **Groups**

Groups ?

Available Groups		Selected Groups
Group 9	<input type="button" value="Add Groups"/>	Group 10 (3)
Group 10		Group 11 (3)
Group 11	<input type="button" value="Remove Groups"/>	Group 12 (3)
Group 12		Group 13 (3)
Group 13		
Group 14		
Group 15		

Save changes and you're all set!
