

## Faculty: User Dashboard

Hart Wilson - 2018-01-12 - Comments (0) - Faculty

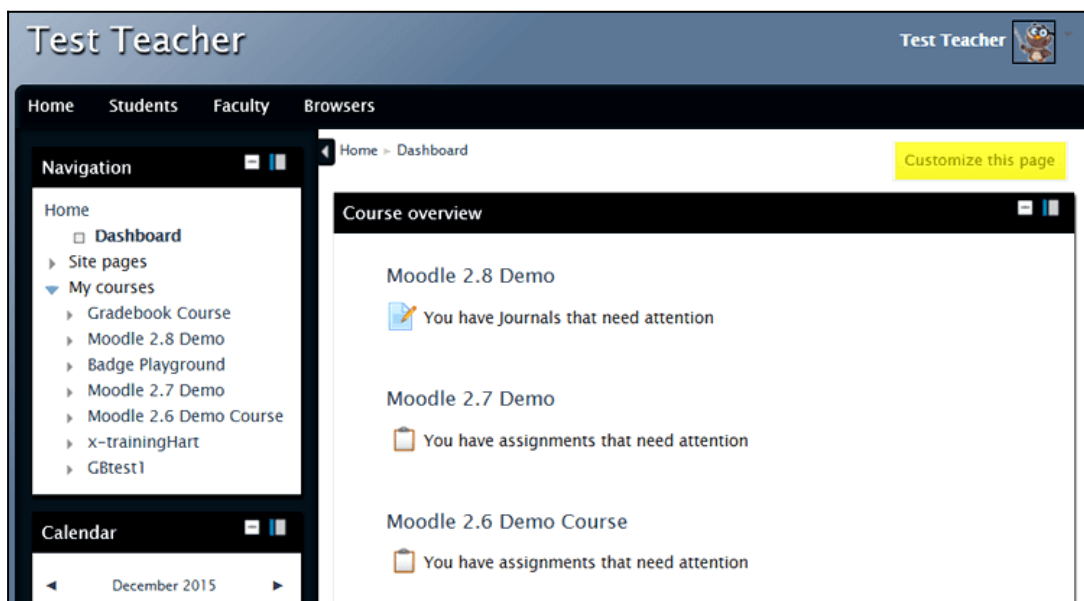

All users have a "dashboard" associated with their Moodle account.

To view your dashboard, click on the pull-down menu to the right of your name in the upper right hand corner of any Moodle page. (You'll also find a link for your dashboard in the **Navigation** block on the left of any page.)

When you click on the **Dashboard** link, you will go to a page listing the courses you are teaching (formerly called **My home**). Adjust the order that your courses appear in by clicking on the **Customize this page** link in the upper right corner.

**TIP:** Moving courses for a new term to the top of the page while they are still unavailable to students makes it much faster to locate them while you're prepping your course sites.

Click on the **Profile** link to **edit** your profile settings or view your recent activity in Moodle.

The screenshot shows the Moodle user profile page for a user named "Test Teacher". The page is titled "Test Teacher" and includes a navigation menu with "Home", "Students", "Faculty", and "Browsers". The main content area is titled "Home > Dashboard > Profile" and is divided into three sections: "User details", "Miscellaneous", and "Reports".

**User details**

- **Edit profile** (highlighted in yellow)
- Preferences
- **Country** United States
- **City/town** Ashland, OR

**Miscellaneous**

- Blog entries
- Forum posts
- Forum discussions

**Reports**

- Browser sessions

The left sidebar contains a "Navigation" menu with "Home", "Dashboard", "Site pages", and "My courses". Below the navigation menu is the Moodle logo and the text "Moodle How-To's".
