Warning

SOU uses Box.com now for cloud storage. We recommend that all users store data in Box instead of Google Drive. Visit https://sou.box.com to get started.

This article will show you how to install the Google Drive File Stream client on your work or personal Windows computer.

Work Computer

To install Google Drive File Stream on your work computer, we recommend that you use Software Center, which enables you to install software packages approved by the IT department without the need for administrator access to your computer. Just look for the Google Drive File Stream entry in the list of applications.
