How to install self-service software through Software Center David Raco - 2025-05-29 - Comment (1) - Faculty/Staff

Using **Software Center**, available on all Windows computers throughout campus, you can now install many software packages on your own without having to call IT. The process is quick and simple. Just follow the steps below.

Note

If you don't find what you're looking for in our self-service software catalog, please notify your <u>Computing Coordinator</u> so we can add it.

Step 1: Launch Software Center by searching for it in the Windows Start Menu.

Step 2: Search the catalog for the software title you want and then click on it.
