Installing Creative Cloud App for Mac and PC (Faculty/Staff)

Ulrich Sommerauer - 2021-02-02 - Comments (0) - Faculty/Staff

Installing Creative Cloud App for Mac and PC

Open the browser of your choice (Chrome, FireFox, Safari or Edge) and navigate to www.adobe.com

Use your SOU email (Not your private one, this is important)

After you successfully logged in, locate the Creative Cloud link and click it.

Click there, then download the App

You can use this license on 2 Computers simultaneously if you like.
I highly recommend only installing the Apps that you need ... the entire suite takes up quite a chunk of your local storage.

For faculty or staff your license will be good for the duration of your employment.
If this is a SOU owned Computer you may have to get with your Computing Coordinator to get the necessary install privileges. [Click this link to find out who your Coordinator is](#).
