- For help with password resets or login issues, contact the IT Help Desk at 541-552-6900 or helpdesk@sou.edu.

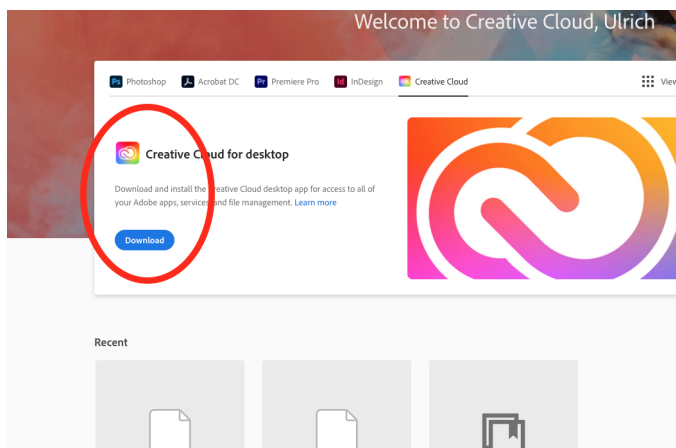

After you successfully logged in, locate the Creative Cloud link and click it.

Find the other Creative Cloud link and also click it

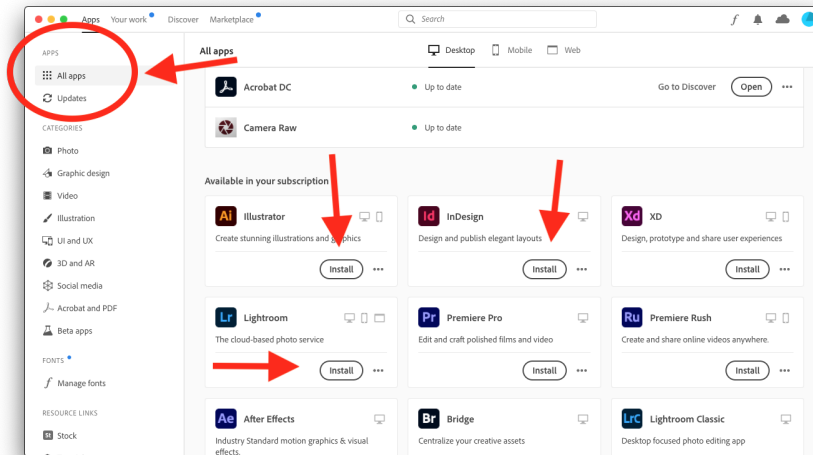

Click there, then download the App

Install the App. Once installed you will be asked to sign in (unless you still have the web interface open). After you gain access you can pick any of

the Apps in the Apps section to download and install.

I highly recommend only installing the Apps that you need ... the entire suite takes up quite a chunk of your local storage.

As a student, the license will be good until the end of the term that you are enrolled in. If you do enroll in another course after that, that also has Adobe privileges, the license will simply continue.
