

Joomla - How to Create a Link to Another Web Page

Francisco Kuriyama - 2023-04-10 - Comments (0) - Joomla

1. Find the web address of the page you want to link.
2. Copy the web address.
3. Go to the Joomla page you are editing.
4. Select the text that you want to use as the display text for your link.
5. Click on the Link icon to open the Link dialog 
6. Enter the web address (from step 1) in the *URL* field.

The screenshot shows the Joomla Link dialog box with the following fields and options:

- Link** tab selected, with **Advanced** and **Popups** tabs also visible.
- URL** field: `http://www.sou.edu/admissions/`
- Text** field: `SOU Admissions`
- Links** section: A search bar with "Search..." and a "Search" button. Below it are two expandable categories: **Content** and **Weblinks**.
- Attributes** section: **Article Anchors** dropdown (---), **Target** dropdown (--Not Set--), and an empty **Title** field.
- Buttons at the bottom: **Insert** (with checkmark), **Help** (with question mark), and **Cancel** (with X).

7. Click on Insert.
8. Save your page.
