

Link to a Website from a Google Site

Hart Wilson - 2022-04-19 - Comments (0) - Google Apps

To embed a link to a website (or Google doc) in a Google site, begin by entering text related to the link you wish to create in a text box. Then follow these steps:

1. Select the relevant text.
2. Click on the **Insert link** icon in the editing toolbar.
3. Copy the URL and paste it in the field provided (use Ctrl+V to paste).
4. Click on **Apply**.
5. Follow the link to ensure that it works correctly.

Remember to publish your site to display your changes to visitors to your site.

The image consists of two screenshots of the Google Site editor interface, illustrating the steps to insert a link into a text box.

Top Screenshot: Shows the editing toolbar at the top. The text "This is my fabulous essay." is selected in the text box. A red callout bubble points to the selected text with the text "1. Select text." A yellow callout bubble points to the "Insert link" icon (a chain link) in the toolbar with the text "2. Click on Insert link."

Bottom Screenshot: Shows the same text box with the text "This is my fabulous essay." selected. A dialog box is open, showing the "Text" field with "fabulous essay" and the "Link" field with the URL "https://drive.google.com/open?id=1h1". A blue callout bubble points to the "Link" field with the text "3. Paste URL." A green callout bubble points to the "APPLY" button in the dialog box with the text "4. Click APPLY."

Normal text ▼ **B** *I* ☰ ☷ ☸ 🔗 🗑️ ⋮

5. Test link.

● This is my fabulous essay. ●

<https://drive.google.co...> ✎ 🗑️
