To embed a link to a website (or Google doc) in a Google site, begin by entering text related to the link you wish to create in a text box. Then follow these steps:

1. Select the relevant text.
2. Click on the **Insert link** icon in the editing toolbar.
3. Copy the URL and paste it in the field provided (use Ctrl+V to paste).
4. Click on **Apply**.
5. Follow the link to ensure that it works correctly.

Remember to publish your site to display your changes to visitors to your site.

The image consists of two screenshots from a Google Site editor, illustrating the process of inserting a link. The top screenshot shows the editing toolbar with the 'Insert link' icon highlighted in yellow. A red callout box labeled '1. Select text.' points to the text 'fabulous essay.' in the text box, which is highlighted in blue. A yellow callout box labeled '2. Click on Insert link.' points to the 'Insert link' icon in the toolbar. The bottom screenshot shows the same text box with the text 'fabulous essay.' highlighted. A blue callout box labeled '3. Paste URL.' points to the 'Link' field in a dialog box, which contains the URL 'https://drive.google.com/open?id=1h1' highlighted in yellow. A green callout box labeled '4. Click APPLY.' points to the 'APPLY' button in the dialog box.
