## Microsoft DreamSpark/Imagine Software Available for Computing Science Students

Brad Christ - 2017-09-02 - 0 Comments - in Students

Through the Imagine program, Microsoft makes development software and tools available to any student enrolled in an SOU Computer Science course at no cost.

To access Imagine, click [here](#).

Note, you must be a current SOU student and enrolled in a Computing Science course to access the SOU Microsoft Imagine WebStore. If you do not meet those criteria, but are still an SOU student, you may enroll yourself in [Imagine](#) for limited access to some Microsoft software.
