

Page No Longer Exists When Accessing PeopleAdmin

Brad Christ - 2023-09-07 - Comments (0) - Web

If you receive an error saying "This page no longer exists" when you try to access PeopleAdmin, you will need to [clear your web browser's cache](#). Once you do this and re-open your browser, you should be able to access the new PeopleAdmin site.

If you have any existing bookmarks for PeopleAdmin, you will need to delete and recreate them after you can access PeopleAdmin again.

If you need assistance, please contact your [Computing Coordinator](#) or the [IT Help Desk](#) at 541-552-6900.
