Powerwash and Enterprise Enroll Chromebooks.

Brady Hogan - 2025-06-30 - Comments (0) - Chromebook

These instructions will go over what you will need to do to **Powerwash** (**Factory Reset**) for **Chromebooks**.

To enable **Powerwash** make sure that you are currently *signed out* of any account that is currently logged into the device.

- Press **CTRL+SHIFT+ALT+R** to bring up the **Powerwash** screen.

- A box will come up to confirm **Powerwash**. Click **Continue**.

- The device will *restart* to **Powerwash** and go through the *first time setup* again.

- After Selecting your **network**, you will be taken to a screen that refers to **Enterprise Enrollment** being completed.

- You will know when the **Chromebook** is properly **enrolled** when you see "**Managed by SOU**" on the *sign-in* page.

How to update without signing in.

- If you would like to do more you can **update *WITHOUT* signing in**.

- Click the **Browse as Guest** button.

- Search for **Settings** >> **About ChromeOS** >> **Check for Update**.
