

## Students: How to Take a Screenshot

Hart Wilson - 2018-05-11 - Comments (0) - Students

Wonder how we show you pictures of Moodle screens? We use screenshots! Being able to take a picture of what you are looking at can be a great way to get the help you need. [This web site](#) explains how to create a screenshot with a variety of devices and applications. Try it out!

 **Going to Mars** 

How would you like to be in charge of not one but **two** robots tootling around Mars?

For this forum, please **read about the man responsible** for leading this project team. As you read, think about the leadership qualities that he displays and the magnitude of the project he's been assigned. Have you ever encountered this kind of leader? Would you be comfortable with his style? What kind of risks can you identify for this project?
