Students: See Instructor Feedback

Hart Wilson - 2021-11-20 - Comments (0) - Students

There are four places (at least!) in Moodle to look for feedback from your instructor:

1. The **gradebook**—click on **Grades** in the navigation panel in the left column of your course. **This article** has many more details for reviewing your grades.
2. In the activity link — for an **Assignment**, click on the link and **scroll down** below the submission status section to see comments and any file(s) returned to you by your instructor.

For a discussion forum, open the forum and click on **View grades**.

3. **User Menu**—open the user menu in the top right corner of any Moodle page.
4. **Attendance**—if your instructor has an Attendance link posted in your course site, you may find feedback posted along with your attendance status for a class session.

This guide explains how to view individual scores and feedback for submissions graded with rubrics and checklists.
