Using Auto-answer

Michael Wagner - 2019-08-26 - Comments (0) - Phone Sets and Features

Some telephones offer the Auto-Answer feature. This feature allows you to automatically answer the call using the telephones speakerphone.

Enabling Auto-Snswer

Enabling this feature will depend on the type of phone you have.

1. 64xx model digital telephone sets
    1. Press the Menu button
    2. Select the AutoAns button
2. 8110 analog telephones
    1. Press the Auto button

In both of these cases the same process will disable this feature.
