

Using the Grade Me Block

Hart Wilson - 2025-07-21 - Comments (0) - Faculty

The "Grade Me" block keeps track of ungraded activities and provides links for quick and easy access. The block is configured to notify you about ungraded assignment submissions, quizzes and lessons, and unrated forums, database items and glossary entries.

Good to Know

- Forums set for **whole forum grading** are **not** tracked by this block; forums set for **ratings will** be scanned for ungraded posts.
- Items that you have scored directly in the gradebook instead of within the activity link **will show** as ungraded in the Grade Me block. (Just ignore them!)
- Students do not see the block.

How the Block Works

The block will initially congratulate you for not having anything to grade; ungraded activities will appear as the course progresses. Click on the name of an activity to go directly to it and access ungraded items.
