

Voicemail to E-mail

Michael Wagner - 2019-10-03 - Comments (0) - Voicemail

The current voicemail system allows voicemail messages to be sent to your e-mail. Below are several examples of what the resulting e-mail will look like:

Medium e-mail format:

The medium e-mail format includes:

- The Caller's number
- The Caller's name, if the caller is on-campus
- The duration of the message (included only in the body of the e-mail)
- The attached audio of the message (if configured)

Full e-mail format:

The full e-mail format includes:

- The Caller's number
- The Caller's name, if the caller is on-campus
- The duration of the message
- The attached audio of the message (if configured)
- Play, Delete, and inbox buttons
 - These buttons will require you to log into the voicemail web portal
