Banner Printing/SFTP Unavailable for Jobs - Use eMail Option

When running jobs in Banner, you cannot currently print or use the sftp (secure file transfer) options. If your files DO NOT have social security numbers in them, you may use the EMAIL or EMAIL_PDF options to have the output emailed to you. Otherwise, you should use the DATABASE option. We are working on the issue with USSE and hope to have it resolved soon.

Thank you for your patience.
