

Change in Wi-Fi access procedures being made 7am on 6/30/21...

2021-06-29 - John Stevenson - Comments (0) - General

The new access will be initiated Wednesday **morning 6/30/21 at 7:00 am** and will require you to reconnect to the Wi-Fi network for all your mobile devices (phone, tablets and laptops). Please use the following steps:

1. Choose your Wi-Fi Network...

SOU-Guest... will not require authentication and should be used for access to the Internet and all public facing network access. Your device will automatically reconnect whenever you come to campus. Recommended for most common use.

SOU-Wireless... WILL require authentication using your SOU username and password. It will allow access to your network shares and the Internet. Keep in mind that it will have a timeout, requiring you to re-authenticate every 10 days.

2. Open your browser (Chrome, Firefox, Edge, Safari, etc.)

On SOU-Guest... It will allow you access to the Internet without logging in.

On SOU-Wireless... You will be presented with the login for your network account.

Should you have issues or questions regarding connecting, please contact the **Help Desk** at **541-552-690**
