

Cognos/Data Warehouse/I*Reports/ODS Upgrade 11/29-11/30

2015-03-10 - Lisa Denney - Comments (0) - General

We will be upgrading the Cognos BI production version on Saturday, 11/29/2015 and Sunday, 11/30/2015. Cognos, including I*Reports, Banner ODS, and the Data Warehouses, will be unavailable during the upgrade.

The biggest change with this upgrade will be that the Cognos Production URL is changing to <https://cognos.usse.oregonstate.edu/ibmcognos> (replacing the old <https://cognos.ous.edu/ibmcognos>). This change is necessary because the ous.edu domain is gradually being phased out now that the Oregon University System no longer exists.

The new links will be available in MySOU and SOU Anywhere the morning of Monday, 11/30/2015. If you have any Cognos bookmarks, you will need to change them to the new url.

If you encounter any problems after the upgrade, please send an email to data-warehouse@support.sou.edu.
