

## Doorlock SMS Server Maintenance - Friday August 12th 8:00am-12:00pm

2022-08-09 - Stephen Lanning - Comments (0) - General

IT and the Lockshop will be working to migrate the SMS doorlock system to a new server.

During this time all doorlock access systems will continue to function; however, no changes to door access will be able to be made via the SMS system. We will update this notification when maintenance is complete.
