

## Internet Service Disruption

2016-10-21 - Jesse Martinich - Comments (0) - General

[Update 4:15 pm] According to Dyn, the issue has been resolved. Please contact the help desk if you have any issues.

--

One of the largest DNS providers on the Internet (Dyn) is under a heavy distributed denial of service (DDOS) attack today.

This is leading to outages for many popular websites including our hosted Moodle instance, Twitter, Github and the New York Times.

Additional details can be found in the articles below. A Google search of "Dyn DDOS" will also yield useful results.
