

Network maintenance: Tue August 5th 6 PM - 9 PM Pacific Time

2025-07-29 - David Raco - Comments (0) - General

The IT Department needs to perform routine maintenance on our networking equipment. We have scheduled this maintenance for **Tuesday, August 5th between 6:00 PM and 9:00 PM** Pacific Time.

During the maintenance window, VPN connections may drop, so we recommend that employees avoid doing VPN work during the maintenance window. We otherwise do not expect interruptions to services or Internet access.

If you experience disruptions to Internet access during or after the maintenance window, please contact the IT Helpdesk at 541-552-6900.

Sincerely,

The IT Team
