

Scam call claiming to be from Google

2019-07-30 - David Raco - 0 Comments - in General

You may receive a phone call from a local area code number such as (541) 264-7501, and when you answer it, you will hear an automated message that begins with: "Hello. Please don't hang up. We have called numerous times to verify your business with Google..."

You can safely hang up the phone because this is a scam call.
