## Storage Limit Phishing Email

2014-03-17 - Brad Christ - [Comments \(0\)](#) - [General](#)

Many of you may have recently received an email like the one below. This is a phishing attack, please do not respond and do not enter any information.

IT will never send out an email from a non-SOU address nor will we ask you to visit a non-SOU website.

We also never call ourselves the "Webmaster Management Team."

If in doubt, before responding, always contact your Computing Coordinator, the IT Helpdesk, or any of the management staff in IT (including me).

Subject: Your email account has exceeded its storage limit

To:

--

Dear Southern Oregon University Webmaster subscriber,

We hereby announce to you that your email account has exceeded its storage limit. You will be unable to send and receive mails and your email account will be deleted from our server. To avoid this problem, you are advised to verify your email account by clicking on the link below.

<http://email.jimdo.com/>

Thank you.

The Southern Oregon University Webmaster Management Team.
